

PRESS RELEASE

FAI offers Maybach Shuttle Service

The German operator FAI rent-a-jet AG is offering his Executive Jet customers a courtesy shuttle by Chauffeur-driven Maybach at the airports of Munich and Nuernberg.

„ We always try hard to offer just a little bit more than our competitors in reference to client's comfort. Operating business jets from A to B is one thing, our courtesy shuttle with Maybach limousines is unique at the moment. Let's see how long it will take until competitors will copy this service.” (S. Axtmann, CEO and founder of FAI stated against EBAN).

Nürnberg, July 2008
